INDEX.

VOL. CXXXI

Illustrations.

Names.

A

ADAMSON, Joseph, and Co., 25-Ton Electric Overhead Foundry Crane, 667
Ahrons, E. L., on R. B. Longridge and Co., Bedlington, 68; (Letter), 122
Ahrons, E. L., on G. and J. Rennie, Blackfriars, 366
A-I Manufacturing Company's Electric Rivet Heaters, 161
Ajax-Wyatt Induction Furnace, 48, 49
Allen, W. H., Sons and Co., Limited, Marine Type Geared Turbo-generator, 482
American Arched Dam with Tangent Ends, 88
American 107-Ton Coal Wagons, Pressed Steel Car Company, 217
American Concrete Mixing Machinery, 60; (Letters), 158, 178
American General Electric Company, Signalling Apparatus, 577
American Grain Elevator, Dust Explosion in, 624
American Mine Winding Engine, Large, Nordberg Manufacturing Company, 540, 541, 544
American Snow-loading Machine, Barber-Greene and Co., 216
American Warships, New, 227 (*Two-page Supplement, March 4th*, 1921)
Amsler, Alfred J., Hydraulic Railway Wagon Weighing Machine, 23
Anderson Brothers Company's Pneumatic Metal Scraping Machine, 160
Arrol, Sir William, and Co., Limited, Six-motor Electric Soaking Pit Crane, 490
Arrol, Sir W., and Co., Tower Crane, Electric, for Handling Timber, 624
Asquith, William, Limited, Radial Drilling Machine for Condenser Tube Plates, 330
Aster Engineering Company, Private House Lighting Set, 298
"Automatic" Electric Trucks, 262
"Automatic" Industrial Locomotives and Tractors, Electricars, Limited, and H. C. Slingsby, 402, 403
Aveline Automatic Pilot, Auto Controls, Limited, 96, 184

B

BAILY Granular Resistance Furnaces, 105-Kilowatt, 49
Barber-Greene and Co., Snow-loading Machine, 216
Beyer, Peacock and Co., Articulated Engine, South African Railways, 11, 14
B.S.A. Tools, Limited, Bench Type Six-spindle Drilling Machine, 494
Blackburn Aeroplane and Motor Company, "Swift" Torpedo-plane, 40, 41
Booth Brass Furnace, 250 lb., 44, 49
Brightside Foundry and Engineering Company, Large Ingot Mould, 600
Bristol Aeroplane Company, Limited:
Bristol Three-seater Tourer, Coupé Type, 6, 7
Bristol Tourer Seaplane, 7 (*Supplement, January 7th*, 1921)
Bristol and Exeter Railway Broad-gauge Engine, 69
British Electric Vehicles, Limited, Battery Locomotives, Trucks and Trolleys, 290, 294, 456
British Oil and Fuel Conservation, Limited, Temperature Control Apparatus, 34
British Tabulating Machine Company, Census Tabulating Machine, 532
British Thomson-Houston Steam Turbines, 592, 596
Broadheath, Churchill Machine Tool Company's Works at, 346, 350
Brown, Boveri and Co., Steam Turbines and Turbo-generators, 534, 535
Brown Brothers, Electrically Operated Tire Pump, 576

C

CALEDONIAN Railway Express Passenger Engine, 11 (*Supplement, January 7th*, 1921)
Cambrian Railway Disaster, 127, 145, 153; (Letters), 159, 215
Cambridge and Paul Machine Motion Recorder, 35
Cammell-Laird Boiler with Straight Tubes, 566
Canning Town Glass Works, 204, 208
Capac Company's Sonoscope, 302
Central Aircraft Company, Centaur Nine-seater Commercial Machine, 40
Chingford, Humphrey Pumps at, 232, 238
Churchill Machine Tool Company, Limited, Double-spindle Hole Grinding Machine, Radius Link Grinding Machine, 51
Churchill Machine Tool Company's Works at Broadheath, 346, 350
Cleworth, Wheal and Co., Humidifying Apparatus for Textile Factories, 648
Coker, Professor E. G., and Others, on Contact Pressures and Stresses, 325, 328, 351, 463
Crompton and Co., Charging Equipment for Electric Vehicles, 456
Cunard Liner Samaria, 21 (*Supplement, January 7th*, 1921)
Curtis-Rateau Steam Turbines, Recent, British Thomson-Houston Company, 592, 596

D

DARNALL Works, The New, Davy Brothers, Limited, 662, 670
Daubenspeck Bottle Making Machine, 205, 208
Davies and Soames New Alternating-current Arc Welder, 484
Davy Brothers, Limited, The New Darnall Works, 662, 670
Davy Brothers, Three-high Plate Mill Plant, 124, 129 (*Two-page Supplement, February 4th*, 1921,
Deeley's Oil Testing Machine, 78
de Haviland Aircraft Company, Limited, D.H. 18 Aeroplane, Interior View, 6
Detroit Furnace, 1-Ton, 44, 49
Dewrance, Sir J., on Generation of Steam, 182
Dolgarrog, Hydro-electric Station in North Wales, J. B. Kershaw, 195
Doxford Opposed Piston Marine Oil Engine, 633, 644
Doxford, W., and Sons, Limited, Single-screw Motor Ship Yngaren, 642
Dunbar and Slater's Pump Lubricator, 161

E

EDISON Electric Trucks, 402
Electricars, Limited, Electric Trucks, 402
Electromobiles, Limited, Electric Truck, 374, 376
Elizabeth Stoner, Cargo Steamship, J. I. Thornycroft and Co., Limited, 626
Elwell Parker Electric Trucks and Tractors, 318
English Electric Company's Industrial Locomotives, 666
English Electric Company's Turbo-alternator, 562
Enterprise, H.M. Light Cruiser, 17 (*Supplement, January 7th*, 1921)

F

FARMER, F. M., on Standardisation in the Testing of Welds, 200
Fowler, John, and Co., Convertible Steam Roller and Traction Engine, 570, 575
France, Early Ironmaking in, 502

G

GALLOWAYS Limited, 1300 H.P. Gas-driven Blowing Engine, 451 (*Two-page Supplement, April 20th*, 1921)
General Electric Company of America, New Electrical Instruments, 625—*see also* America
German Battleship, Experimental Bombardment of, 421, 434
Gilkes, Gilbert, and Co., Turgo Impulse Water Turbine, 411
Gill Hydraulic Propulsion Equipment, 172
Glenfield and Kennedy, Hydraulic Valve, 77; (Correction), 132
Gloucester Furnace, Early, at Lamberhurst, 502
Gowland, Wm., Capstan Dial Gauge, 76
Grain Discharging Plant, Floating Pneumatic, Henry Simon, Limited, 378, 381
Great Central Railway Four-cylinder Engines, 660 (*Two-page Supplement, June 24th*, 1921)
Great Eastern Railway Cross-Channel Steamer Antwerp, 22 (*Supplement, January 7th*, 1921)
Great Eastern Railway Express Goods Engine, 10 (*Supplement, January 7th*, 1921)
Great Indian Peninsular Railway Tank Engine, North British Locomotive Company, 11, 14
Great Northern Railway Fast Goods Engine, 10 (*Supplement, January 7th*, 1921)
Great Western Railway, Parsons Tunnel Lengthening, 256, 259
Great Western Railway, Trestle Viaducts on the, 64, 72: (Letter) 92
Noss and Longwood Timber Trestle Viaducts, 64
Penryn Timber Viaduct, 65, 72
Ponsanooth Viaduct, 64, 72
Saint Germains Viaduct, 64, 72
Greenbat Electric Truck, 374, 375, 376
Grice, Wm., and Sons' "Invincible" Air Filter, 149, 150

H

HANDLEY Page Aeroplane Cockpit with Automatic Control, 186
Harland and Wolff, Limited, R.M.S. Arundel Castle, 510, 514
Hathorn, Davey and Co., Triple Corliss Pumping Engine for Margate Waterworks, 588, 589
Heenan and Froude Electric Truck, 234
Herbert, Alfred, Limited, Auto-Lathe, 574
Hilger Interference Gauge, 157
Holland, First Locomotive in, The Snelheid, 1839, 68
Hong Kong Water Supply, 170, 180 (*Two-page Supplement, February 18th*, 1921)
Hood, H.M. Battle-cruiser, at Full Speed, 17 (*Supplement, January 7th*, 1921)
Hotchkiss Hydraulic Propulsion Equipment, 141, 142
Humphrey Pumps at Chingford, 232, 238
Hunt, Herbert, and Sons, Twist Drill Sharpening and Thinning Machine, 674

I

IGRANIC ELECTRIC COMPANY, Charging Equipment for Electric Trucks and Road Vehicles, 456
India Rubber, Gutta Percha and Telegraph Works Company's Electric Trucks and Gear, 424, 456
Italian Battleship Leonardo da Vinci, Salving of, 281 (*Two-page Supplement, March 18th*, 1921)

J

JACK, Alexander, and Co., Magnetic Plate-handling Cranes, 298
James, Witton, Limited, Electro-magnetic Reel Brake and Regulators, 522
Jeffery Battery Locomotives, 290
Jeffrey Radial Type Loader for Loose Materials, 577
Jenkins, Rhys, Rise and Fall of the Sussex Iron Industry, 116, 502, 546
Johnsen, Alfred, and Knud Rahbek, Physical Phenomenon and its Application, 597, 600

K

KERR, Stuart and Co., Limited, Metropolitan Railway Tank Engines, 120, 121
Kershaw, J. B. C., on Electric Furnaces for Non-ferrous Metals, 44, 48
Kershaw, J. B. C., on Water Power Developments in North Wales, 195; (Letter), 245

L

L 71 and M 23, H.M. Submarines, 17 (*Supplement, January 7th*, 1921)
Lancashire Dynamo and Motor Company, Equipment for Charging Truck and other Electric Vehicle Batteries, 456
Lancashire and Yorkshire Passenger Engine, Tests of, 410
Lansing Equipment Company's Electric Truck and Electric Tractor, 374, 375
Leonardo da Vinci, Italian Battleship, Salving of, 281 (*Two-page Supplement, March 18th*, 1921)
Leroux, Monsieur P. E., Railway Motor Coach, 612
Leyland Steam Wagon, 616
Lindsay, F. E., Skew Gear Design, 652
Lochaber Hydro-electric Scheme, 226
London and Brighton Superheater Express Goods Engine, 10 (*Supplement, January 7th*, 1921)
London and Southampton Railway Locomotive, Built in 1838, 366
London and South-Western Railway Six-coupled Express Goods Engine, 11 (*Supplement, January 7th*, 1921)
Longridge, R. B., and Co., Bedlington, E. L. Ahrons, 68; (Letter), 122
Lord Clive, British Monitor, with Experimental Triple Big Gun Mounting, 421, 434
Lynch Bottle-making Machine, 205

M

MAAG System of Gearing, 283, 403
Marine and Locomotive Superheaters, Limited, Works Extension at Trafford Park, Manchester, 438
Marshall, Sons and Co., Limited, Economical Portable Engine, 505, 507
Martinsyde Racing Aeroplane Semiquaver, 6 (*Supplement, January 7th*, 1921)
Mason, Dr. W., Alternating Stress-testing Machine, 550
Massey, B. and S., Railway Tire-fixing Machine, 441
Meandros, Cargo Steamer, J. I. Thornycroft and Co., Limited, 21 (*Supplement, January 7th*, 1921)
Metropolitan Railway Four-coupled Tank Engines, 120, 121
Metropolitan Railway Tank Engine, 11; (Correction), 38
Midland Railway Decapod Banking Engine, 10, 11
Midland Railway Oil-firing Arrangement, 601; (Letters), 618, 651, 664

N

NEEDHAM'S "Pulsator" Speed Indicator, Evershed and Vignoles, Limited, 34, 35, 517
Newcomen Society:
Rise and Fall of the Sussex Iron Industry, Rhys Jenkins, 116, 502, 546
Summer Meeting in Birmingham, 608, 636, 672
Trevithick's London Locomotives, Loughnan Pendred, 242, 268; (Letters), 273, 301
New South Wales Railway Motor Coach Converted from Motor Lorry, 94, 95, 98
Nordberg Manufacturing Company, Large Copper Mine Winding Engine, 540, 541, 544
Norfolk, Virginia, Coaling Plant at, 456, 466
North British Locomotive Company Engines, Sudan Government Railways and Great Indian Peninsular Railway, 11, 14
North-Eastern Railway Fast Goods Engine, 11; (*Supplement, January 7th*, 1921)
North-Eastern Railway New Electric Rolling Stock, 394, 406 (*Two-page Supplement, April 15th*, 1921)
North Wales, Water Power Developments, J. B. C. Kershaw, 195; (Letter), 245

O

OEHMICHEN-PEUGEOT Helicopter, 411
O'Neill Glass Bottle-making Machine, 548
Owens Bottle-making Machine, 204

P

PARSONS, C. A., and Co., Limited, Pass-out Turbine and 1250-Kilowatt Alternator, 640, 641
Parsons Tunnel on the Great Western Railway, Lengthening, 256, 259
Pendred, Loughnan, on Trevithick's London Locomotives, at the Newcomen Society, 242, 268; (Letters), 273, 301
P. and O. Liner Naldera, 21 (*Supplement, January 7th*, 1921)
Physical and Optical Societies' Exhibition, 34
Porter Water-softening Company's Densimeter for Boilers, 157; (Letter), 215
Pressed Steel Car Company's 107-Ton Coal Wagons, 217
Prinses Juliana, Zeeland Steamship Company, 22; (*Supplement, January 7th*, 1921)

R

R 38, H.M. Airship, 610, 620
Raleigh, H.M. Light Cruiser, 17 (*Supplement, January 7th*, 1921)
Rankin Feeder, York Glass Works, 206
Ransomes, Sims and Jefferies Electric Trucks and Electric Locomotive, 235, 236
Record Two-stroke Internal Combustion Engine, 270
Regent Shears (1918), Limited, High-speed Shearing Machine, 270
Rennerfelt Indirect Arc Furnace, 48, 49, 50
Rennie, G. and J., and Co., Blackfriars, E. L. Ahrons, 366
Rhodin, John G. A., Aluminium Reverberatory Furnace, 587
Richards, George, and Co., Crank Pin Turning Machine, 102
Richardsons, Westgarth and Co., Vertical Three-cylinder Rolling Mill Engine, 354 (*Two Two-page Supplements, April 1st*, 1921)
Roadcraft Limited, Electric Truck, 374, 376
Roberts, Charles, and Co., Limited, Wagon Works at Horbury Junction, Yorkshire, 476, 486; (Correction), 682
Robertson's Stroboscopic Vibrator, 36
Robson, A. G., on Precision Gauge Manufacture, 312, 313
Rosenhain's Recording Chronograph, 36
Royles Limited, Boiler Feeding by Gravitation, 491
Rudge-Whitworth Works Laboratory, 430; (Correction), 471
Ruston and Hornsby, Limited, Crank Shaft Alignment Indicator, 355

S

"SACK" Steam Disinfector, Meldrums Limited, 331
Saunders, S. E., Limited, Amphibian Flying Boat Kittiwake, 6 (*Supplement, January 7th*, 1921)
Saurer, Adolphe, Gear Wheel Testing Machine, 285
Scriven and Co., Mangle, Shears, &c., for Rolling Mill, 124, 129, 130 (*Two-page Supplement, February 4th*, 1921)
Sewell Point Coaling Plant at Norfolk, Virginia, 456, 466
Short Brothers, Limited, All-metal Freight-carrying Biplane "Silver Streak," 40, 41
Shrewsbury and Birmingham Railway Engine, 1849, 68
Shrewsbury and Chester Railway Engine, 1846, 69
Silvertown Electric Trucks and Gear, 424
Simon, Henry, Limited, Floating Pneumatic Grain Discharging Plant, 378, 381
Simpson, J., and Co., Limited, Triple-expansion Pumping Engines for Hong Kong Water Supply, 170, 180 (*Two-page Supplement, February 18th*, 1921)
Snyder Direct Arc Furnace, 48, 50
South African Railways, Garratt Articulated Engine, Beyer, Peacock and Co., Limited, 11, 14
Stoke-on-Trent, Proposed New Railway Lines, 467
Submersible Motors, Limited, High-lift Pump, 24
Sudan Government Railway's Eight-coupled Engine, North British Locomotive Company, 11, 14
Sulzer Works, Testing Diesel Engines in, 674
Sussex Iron Industry, Rise and Fall of, Rhys Jenkins, 116, 502, 546
Swedish General Electric Company, Direct-current Motor, Polyphase Motor, and Polyphase Alternator, 521
Sydney, Large Grain Elevator, 649
Sykes' Non-token System for Single-line Railway Working, 116

T

THEODORE Roosevelt, Motor Ship, 22 (*Supplement, January 7th*, 1921)
Thornycroft, J. I., and Co., Limited, Altered Stern Post, 52
Thornycroft Boilers, 566
Thornycroft, J. I., and Co., Cargo Steamship Elizebeth Stoner, 626
Thornycroft, J. I., and Co., Motor Lorry to Drive Factory, 649; (Letter), 664
Tinsley Tuning Fork Stroboscope, 34
Trevithick's London Locomotives, Mystery of, Loughnan Pendred at the Newcomen Society, 242, 268; (Letters), 273, 301, 357; (Correction), 357
Tyer Electric Tablet Instrument, 115

U

UNION Castle Liner, Arundel Castle, Harland and Wolff, 510, 511
United Alkali Company's West Bank Dock Electric Power Station, 144, 148, 152; (Note), 224
United States Forest Products Laboratory, 322, 326
United States—*see also* American

V

VICKERS, Limited:
Vickers Instructional Machine, 5 (*Supplement, January 7th*, 1921)
Vickers Viking Amphibian Flying Boat, 6 (*Supplement, January 7th*, 1921)
Vickers-Vimy Commercial Aeroplane, 5, 6
Vickers-Petters, Limited, Six-cylinder Hot Bulb Marine Oil Engine, 212, 213
Virginian Railway 107-Ton Coal Wagons, 217

W

WADE, E. B. H., Meniscus Microphones, 442
Walker, J. H., Device for Holding Down Rails to Concrete Foundations, 131
Walker, R. J., and S. S. Cook on Mechanical Gears, of Double Reduction, for Merchant Ships, 327
Wallsend Shipyard Oil-tight Bulkheads for Tankers, 331
Wardrop, Charles C., "Sincometer," Device for Survey Work, 594
Webb and Thompson Electrically Controlled Train Staff Apparatus, 115
Welsh Railway Disaster, 127, 145, 153; (Letters), 159, 215
West Bank Dock Electric Generating Station, United Alkali Company, Widnes, 144, 148, 152; (Note), 224
Westinghouse Brake and Saxby Signal Company, Derailers for Railway Sidings, 576
Westland Aircraft Works, Six-seater Limousine, 6 (*Supplement, January 7th*, 1921)
Westminster Tool and Electric Company's Drill, 331
Widnes—*see* West Bank
Wile Tin Smelting Furnace, 50
Wilfley Centrifugal Pump, 96; (Letters), 122, 158, 214, 272, 357, 413
Wolverine, H.M. Destroyer, 17 (*Supplement, January 7th*, 1921)

Y

YALE Electric Trucks and Tractor, 262, 266
Yarrow Boilers, Water Drums of, 442, 566
Yngaren, Motor Ship, Single-screw, Trials of, W. Doxford and Sons, Limited, 642
York Glass Company's Works, Lynch Bottle Making Machine, 205
Yorkshire Wagon Building Works, C. Roberts and Co., 476, 486; (Correction), 682

Subjects.

A

AERONAUTICS:
Airship, H.M., R 38, 610, 620
Aveline Automatic Pilot, Auto Controls, Limited, 96, 184
Blackburn "Swift" Torpedo-plane, 40, 41
Bristol Aeroplane Company, Limited:
Three-seater "Bristol" Tourer, Coupé Type, 6, 7
Tourer Seaplane, 7 (*Supplement, January 7th*, 1921)
Central Aircraft Company's Centaur Nine-seater Commercial Machine, 40
de Haviland Aircraft Company, Limited, D.H. 18 Aeroplane, Interior, 6
Helicopter, Oehmichen-Peugeot, 411
Martinsyde, Limited, Racing Aeroplane "Semiquaver," 6 (*Supplement, January 7th*, 1921)
Saunders Amphibian Flying Boat Kittiwake, 6 (*Supplement, January 7th*, 1921)
Short All-metal Freight-carrying Biplane "Silver Streak," 40, 41
Vickers Instructional Machine, 5 (*Supplement, January 7th*, 1921)
Vickers Viking Amphibian Flying Boat, 6 (*Supplement, January 7th*, 1921)
Vickers-Vimy Commercial Aeroplane, 5, 6
Westland Six-seater Limousine, 6 (*Supplement, January 7th*, 1921)
AIR Filter, Wm. Grice and Sons, 149, 150
Alternating Stress Testing Machine, Dr. W. Mason, 550
Aluminium Reverberatory Furnace, J. G. A. Rhodin, 587
Arc Welder—*see* Electrical Matters
Assaying Apparatus, Coal, 355
Auto-lathe—*see* Machine Tools

B

BLOWING Engines—*see* Engines
Bogie, Electric Motor, for North-Eastern Railway, 394, 406 (*Two-page Supplement, April 15th*, 1921)
Boiler Feeding by Gravitation, Royles, Limited, 491
Boiler-house at West Bank Dock Power Station, 144, 149, 152
Boiler Water Densimeter, Continuous, Porter Water Softening Company, 157; (Letter), 215
Boilers, Corrosion of, Sir John Dewrance, 182
Boilers, Yarrow, Water Drums of, 442, 566
Bottle, Glass, Machine, O'Neill Machine Company, 548
Bottle-making Machines, Daubenspeck, Lynch, Owens, 204, 208

C

CEMENT—*see* Concrete Mixing
Census Tabulating Machine, British Tabulating Machine Company, 532
Centrifugal Pump, Wilfley Company, Limited, 96; (Letters), 122, 158, 214, 272, 357
Charging, Batteries, Equipment—*see* Electrical Matters
Coal-assaying Apparatus, 355
Coal Tippler and Elevator at West Bank Dock Power Station, 149
Coal Wagons, 107-Ton, Pressed Steel Car Company, 217
Coaling Plant at Norfolk, Virginia, 456, 466
Concrete Foundations, Device for Holding Down Rails to, J. H. Walker, 131
Concrete-mixing Machinery, American, 60
Car for Lining Railway Tunnels with Concrete, 61
Cement Gun, 61, 62; (Letters), 158, 178
Coating a Girder with Concrete, 62
Concrete-lined Tunnel with Steel Forms, 61
Concreting Disintegrating Rock in a Tunnel, 60
Construction of Reinforced Concrete Walls, 63
Grain Elevator with Concrete Walls, 62
Hains Gravity Concrete Mixer, 60
Pneumatic Apparatus for Lining Tunnels, 60, 61
Contact Pressures and Stresses, Professor E. G. Coker and others, 325, 328, 351, 463
Corrosion of Boilers, Sir John Dewrance, 182
Crane, Magnetic Plate-handling, Alexander Jack and Co., Limited, 298
Crane, Overhead Foundry, 25-Ton, Electric, Joseph Adamson and Co., 667
Crane, Pit, Electric Soaking, Sir William Arrol and Co., Limited, 490
Crane, Tower, for Handling Timber, Electric, Sir William Arrol and Co., Limited, 624
Crank Pin Turning—*see* Machine Tools
Crank Shaft Alignment Indicator, Ruston and Hornsby, Limited, 355
Cutting Tools—*see* Machine Tools

D

DAM, American Arched, with Tangent Ends, 88
Densimeter, Continuous, for Boilers, Porter Water Softening Company, 157; (Letter), 215
Derailers for Railway Sidings, Westinghouse Brake and Saxby Signal Company, Limited, 576
Diesel Engines—*see* Engines
Disinfector, Steam, The "Sack," 331
Drills—*see* Machine Tools
Dust Explosion in an American Grain Elevator, 624

E

ELECTRICAL MATTERS:
Alternating-current Arc Welder, Daysohms, 484
Charging Equipments for Electric Trucks, Tractors and Industrial Locomotives, Igranic Electric Company, Crompton and Co., India-rubber and Gutta-percha Company, British Electric Vehicles, Limited, Lancashire Dynamo and Motor Company, 456, 457
Crane, 25-Ton Electric Overhead Foundry, Joseph Adamson and Co., 667
Crane, Electric Tower, for Handling Timber, Sir W. Arrol and Co., Limited, 624
Crane, Six-motor Electric Soaking Pit, Sir W. Arrol and Co., Limited, 490
Direct-current Motor, Polyphase Motor, Adjustable Speed, and Polyphase Alternator, Swedish General Electric Company, 521
Drill, Westool Electric, 331
Electric Furnaces for Non-ferrous Metals, J. B. C. Kershaw, 44, 48
Ajax-Wyatt Induction Furnace, 48, 49
Baily Granular Resistance Furnaces, 105-Kilowatt, 49
Booth Brass Furnace, 250 lb., 44, 49
Detroit Furnace, 1-Ton, 44, 49
Rennerfelt Indirect Arc Furnace, 48, 49, 50
Snyder Direct Arc Furnace, 48, 50
Wile Tin-smelting Furnace, 50
Electric Rivet Heaters, A-I Manufacturing Company, 161
Electric Trucks and Industrial Locomotives, 234, 262, 266, 290, 294, 318, 374, 375, 402, 424, 456—*for Details, see* Trucks, *also* Locomotives
Electro-magnetic Reel Brake and Regulators, Witton James, Limited, 522
Grain-discharging Plant, Pneumatic, Electric Equipment for, 378, 381
Indicator, Alternator Excitation, and Indicator, Rotor Winding Temperature, General Electric Company of America, 625
Indicator, Speed, Needham's Pulsator, 34, 35, 517
Lochaber Hydro-electric Power Scheme, 227
Locomotives, Industrial Electric—*see* Locomotives
Magnetic Plate-handling Crane, Alexander Jack and Co., 298
Marine Type Geared Turbo-generator, W. H. Allen, Sons and Co., Limited, 482
Parsons, C. A., and Co., Pass-out Turbine and 1250-Kilowatt Alternator, 640, 641
Physical Phenomenon and its Application, Alfred Johnsen and Kund Rahbek, 597, 600
Piloting Vessels by Electrically Energised Cables, A. Crossley, 567
ELECTRICAL MATTERS (*continued*):
Power Supply, Projected, in North Wales, J. B. C. Kershaw, 198; (Letter), 245
Printers' Exhibition, Electrical Exhibits at, 521
Private House Lighting Set, Aster Engineering Company, 208
Railway, Working of Single Lines of, Tyer Tablet Instrument, Webb and Thompson Train Staff Apparatus, Sykes Non-token System, 115, 127
Railways, Electric—*see also* Railway
Signalling System, American General Electric Company, 577
Steam Turbine Design, Recent Improvements in, 482, 534, 535, 562, 592, 596, 640
Temperature Limits of Large Alternators, C. A. Juhlin, 125, 130, 625
Tire Pump, Electrically Operated, Brown Brothers, 576
Turbo-alternator, English Electric Company, 562
Turbo-generator, Brown, Boveri and Co., Limited, 534, 535
Turbo-generators—*see also* Steam Turbine Design
West Bank Dock Electric Power Station near Widnes, 144, 148, 152; (Note), 224
Winch, ½-Ton Electric, for Grain-discharging Plant, 383
ELEVATOR, Grain, Large, at Sydney, N.S.W., 649
ENGINES AND MOTORS:
Convertible Steam Roller and Traction Engine, J. Fowler and Co., Limited, 570, 575
Diesel Engines, Testing, in the Sulzer Works, 674
Engine-room at West Bank Dock Power Station, 144, 148, 152

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:
Association of Engineers, Manchester:
Cane Sugar Machinery, W. Scott Herriott, 288
Reinforced Concrete and the Housing of Expensive Plant, Felix Milner, 79
Sixtieth Anniversary Dinner, 216

Institute of Chemistry:
Annual General Meeting, 271

Institute, Concrete:
A Foundation Failure, Lawson S. White, 667

Institute, Iron and Steel:
Annual Meeting, 519, 536
Autumn Meeting in Paris, 191
Awards, 519
Blast-furnace and Cupola Slags, J. E. Fletcher, 521
Cause of Quenching Cracks, Kotaro Honda and others, 537
Cleaning of Blast-furnace Gas, Notes on, S. H. Fowles, 520
Cupric Etching Effects Produced by Phosphorus and Oxygen in Iron, J. H. Whiteley, 537
Grants from the Carnegie Research Fund, 536
Prevention of Hardening Cracks, &c., and Effect of Recalescence in a Tungsten Tool Steel, Shipley and Brayshaw, 537
Scientific Control of Combustion, H. T. Ringrose, 511
Solid Solution of Oxygen in Iron, Dr. J. E. Stead, 520, 537
Sulphur in Steel, Methods of Estimating, T. E. Rooney, 538
Welding of Steel in relation to Defects in Ingots, H. Brearley, 506, 519

Institute of Marine Engineers:
Annual Meeting, New President, 370
Diesel Marine Engines, Sir J. P. Maclay, 370

Institute of Metals:
Action of Reducing Gases on Heated Copper, S. Beckinsale and H. Moore, 285
Annual Dinner, 264
Annual General Meeting, 177, 264, 285
Casting of Metals, Lecture by Professor T. Turner, 492
Constitution of the Alloys of Copper with Tin, Dr. J. L. Haughton, 286
Plastic Deformation of Some Copper Alloys, Professor C. A. Edwards and Mr. A. M. Herbert, 285
Programme, 177
Season Cracking of Brass and other Copper Alloys, Messrs. H. Moore and S. Beckinsale and Miss C. E. Mallinson, 264
Some Notes on Calcium, P. H. Brace, 285
Stages in the Recrystallisation of Aluminium Sheet on Heating, Professor H. C. H. Carpenter and Miss C. F. Elam, 286

Institute of Mining and Metallurgy:
Presidential Address, F. W. Harbord, 454

Institute of Physics:
Inaugural Meeting, 467

Institute of Transport:
First Congress, at Manchester, 118
Papers on Road Transport, Messrs. C. le M. Gosselin and J. C. Haller; Locomotive Construction and Repair, Great Central Railway, Mr. Smith; Future of the Canals, Sir J. Eaglesome, 118
Visits to Manchester Ship Canal, Trafford Park, Liverpool Dock System, Lancashire and Yorkshire Railway Train Control and School of Signalling, Manchester Tramway Works, &c., 118

Institution of Automobile Engineers:
Annual Dinner, 109
Automobile Research, Suggested Programme for, George Watson, 260
Ball Bearing, The: In the Making, under Test, and on Service, H. L. Heathcote, 260, 491
Elections, Programme of Meetings, &c., 260

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
Institution of Civil Engineers:
Airship Sheds and their Erection, L. H. Larmuth, 412
Engineering Conference, Date, Programme of Meetings, Papers and General Arrangements, 651
Joint Meeting in Birmingham for Discussion of Water Resources Committee Report and Severn Barrage Scheme, 210, 230
Measuring the Discharge of the Nile at the Assuan Dam, Sir M. Macdonald and Mr. H. E. Hurst, 542
Pass List (Interim), April Examinations, 1921, 594
Port Improvements at Newcastle, New South Wales, Percy Allan, 270
Strengthening Cannon-street Bridge, George Ellson, 150

Institution of Electrical Engineers:
Annual Dinner, Jubilee Year, 274
Kelvin Lecture, Electrons, Sir William Bragg, 142
Long-distance Telephone System of the United Kingdom, Sir William Noble, 319
Magnetic Susceptibility of Low Order, Professor E. Wilson, 241
Multi-part Tariffs for Domestic Supply, J. W. Beauchamp, 479
Recent Developments in Large Steam Turbine Practice, K. Bauman, 399
Temperature Limits of Large Alternators, G. A. Juhlin, 125, 130
Thermal Characteristics of Electric Ovens and Hot Plates, Dr. Ezer Griffiths and Mr. F. H. Schofield, 176, 181
INFORMAL SECTION—
Characteristics and Applications of Multi-speed A.C. Motors, F. Creedy, 438
STUDENTS' SECTION—
Address, Mr. Llewelyn B. Atkinson, 221

Institution of Engineers (India):
Inaugural Meeting, 216

Institution, Junior, of Engineers:
MELBOURNE SECTION—
Origin of Natural Oil, Rear-Admiral Sir W. Clarkson, 511

Institution of Mechanical Engineers:
Annual Report, 198
Conference on "Means of Improving the Thermal Efficiency of Heat Power Plants," 571, 673
Contact Pressures and Stresses, Professor E. G. Coker and others, 325, 328, 463
Correspondence on "The Mechanicals"—*see* Letters to the Editor
Cutting Tools, Programme of Research Work, 198
Degassing and Purification of Boiler Feed Water, Monsieur Paul Kestner, 257
Generation of Steam, Sir John Dewrance, 182
Heat Losses in Power Plants, 571
Joint Discussion with Faraday Society and others on Failure of Metals, &c.—*see* Society, Faraday
Joint Meeting with the Society of Chemical Industry, 257
Lecture on World's Money System, J. G. Graves, 601
Limit Gauging, Discussion on Sir R. Glazebrook's Thomas Hawksley Lecture, 450, 462
London Summer Meeting, Programme, 673
Mechanical Loading of Ships, H. J. Smith, 91, 103, 126
Sir Robert Hadfield Prize, 241
Standardisation in the Testing of Welds, F. M. Farmer, 198, 200, 231
War Memorial, Unveiling, 155
MANCHESTER ENGINEERS' CLUB—Repetition of Papers Read in London:
Contact Pressures and Stresses, Professor E. G. Coker and others, 463
Mechanical Loading of Ships, H. J. Smith, 126
Standardisation in the Testing of Welds, F. M. Farmer, 231
Manchester Local Branch of the Institution, Formation, 191

Institution of Naval Architects:
Annual Meeting, 287, 314, 343
Annual Report for 1920, Elections, Awards, Dinner and Conversazione, 287
Deflections of Bulkheads and of Ships, A. M. Robb, 344
Design of Balanced Rudders of the Spade Type, M. E. Denny, 315
Ex-German Battleship Baden, S. V. Goodall, 287
Experiments on Tallows Used for Launching Ships, J. J. King-Salter, 344
Framing of Ships, Professor T. B. Abell, 343
Life-saving Appliances on Cargo and Passenger Vessels, E. W. Blocksidge, 314
Mechanical Gears of Double Reduction for Merchant Ships, R. J. Walker and S. S. Cook, 314, 327
Some Features of German Warship Construction, Sir Eustace d'Eyncourt, 287, 297
Spacing of Transverse Bulkheads, K. G. Finlay, 343
Standardisation of Data for Aircraft Calculation, H. B. Wyn-Evans, 315
Strength of Submarine Vessels, W. R. J. Whiting, 314

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Production Engineers:
Formation, 423

Societies, Physical and Optical:
Exhibition at Imperial College of Science—*see also* Exhibitions:
Dr. W. Rosenhain's Recording Chronograph, 36
Machine Motion Recorder, Cambridge and Paul Instrument Company, 35
Marconi Wireless Exhibits, 34
Needham's Pulsator Speed Indicator, 34
Robertson's Stroboscopic Vibrator, 36
Temperature Control Apparatus, British Oil and Fuel Conservation, Limited, 34
Tinsley Tuning-fork Stroboscope, 34

Society of Chemical Industry:
LONDON SECTION—
Erosion of Bronze Propellers, Dr. O. Silberrad, 146
Industrial Respirators, Dr. L. Levy, 674
Smith Continuous System of Carbonisation, G. H. Thurston, 41

Society of Engineers:
Physical Properties of Clay, A. S. E. Ackermann, 551

Society, Faraday:
Joint General Discussion on Failure of Metals under Internal and Prolonged Stress:
Programme, 325
Introductory Address, Dr. Rosenhain, 371, 477, 523
List of Papers:
Chemical Influences in Failure of Metals, &c., Professor C. H. Desch, 371
Failure of Lead Sheathing of Telegraph Cables, L. Archbutt, 371
Failure of Metals through Internal Stress Irregularities, &c., J. N. Greenwood, 397
Fractures in Locomotive Boiler Tubes, Sir H. Fowler, 396
Intercrystalline Cracking of Mild Steel in Salt Solutions, J. A. Jones, 397
Intercrystalline Fracture in Steel, D. Hanson, 396
Internal Fractures in Steel Rails, &c., H. S. Rawdon, 397
Internal Stresses in Brass Tubes, R. H. N. Vaudrey and W. E. Ballard, 371
Internal Stresses in relation to Microstructure, J. C. W. Humfrey, 371
Mechanism of Failures of Metals, &c., Dr. W. H. Hatfield, 371
Phosphor Bronze Bars, John Arnott, 427
Season Cracking in Brass, Prevention of, &c., H. Moore and S. Beckinsale, 427
Season Cracking, Experiences of, during the War, O. W. Ellis, 427
Spontaneous Cracking of the Necks of Small Arm Cartridge Cases, W. C. Hothersall, 427
Discussion on Papers, 372, 397, 427
Zinc Smelting in Great Britain, Samuel Field, 384

Society, Royal:
Conversazione, 517

Society, Royal, of Arts:
Third Cantor Lecture: Examination of Materials by X-Rays, Major G. W. C. Kaye, 437

AUSTRALIA, Textile Machinery in, 22
Auto-thermal Feed, Royles, Limited, 491

Books Received:

Aeroplane Performance Calculations, Harris Booth, 573
Air Supply to Boiler-rooms of Modern Ships of War, R. W. Allen, 573
Aircraft and Automobile Materials of Construction, Arthur W. Judge, 573
Applied Colloid Chemistry, W. D. Bancroft, 573
Artificial Light, Its Influence on Civilisation, M. Luckeish, 547
Automobile and Aircraft Engines, Arthur W. Judge, 573
Belts for Power Transmission, W. G. Dunkley, 296
Benzol: Its Recovery, Rectification and Uses, S. E. Whitehead, 12
B.O.T. and Marine Engineering Knowledge, Steam and Oil, W. C. Macgibbon, 12
British in China and Far Eastern Trade, C. A. Middleton Smith, 12
British Journal Photographic Almanac, &c., George E. Brown, 12

LITERATURE (*continued*):

Books Received (*continued*):

British Scientific Instruments, Dictionary of, 547
Coal Washing, Ernst Prochaska, 573
Coke Oven and By-product Works Chemistry, Thomas Biddulph-Smith, 623
Comparative Therm Tables, H. R. Askew, 125
Continuous-current Armature Winding, Elementary Principles of, F. M. Denton, 296
Continuous Wave Wireless Telegraphy, W. H. Eccles, 547
Copper Refining, Lawrence Addicks, 573
Cours de Mécanique Appliquée aux Machines Professé à l'Ecole Spéciale du Génie Civil de Gand, J. Boulvin, 573
Creative Chemistry, Edwin E. Slosson, 547
Democracy and Capital, W. B. Faraday, 353
Direct-current Dynamos and Motors, Theory of, John Case, 128
Drainage and Sanitation, E. H. Blake, 547
Dynamo and Motor Attendants and their Machines, Frank Broadbent, 573
Electrical Engineering, F. F. Wall, 623
Electrical Handling of Materials, Vol. II., Structural Work, H. H. Broughton, 573
Electrical Installation Work, J. H. Havelock, 547
Electric Welding, Ethan Viall, 623
Electrification of Railways, H. F. Trewman, 296
Electrolytic Deposition of Hydrometallurgy of Zinc, Oliver C. Ralston, 573
Employee Training, J. Van Liew Morris, 573
Engineering as a Career, Percival Marshall and A. W. Marshall, 547
Engineering Construction, Part I., In Steel and Timber, Part II., In Masonry and Concrete, W. H. Warren, 573
Extra Chief Engineers' and Surveyors' Guide to the Examinations of the Board of Trade, Peter Youngson, 623
Field Methods in Petroleum Geology, G. H. Cox and others, 573
Files and Filing, Translated, Ch. Fremont, 12
Fuel Oil and Steam Engineering, Elements of, R. Sibley, 623
Gas Torch and Thermit Welding, Ethan Viall, 573
Gasoline Automobiles, J. A. Moyer, 573
Geology of the British Empire, F. R. C. Reed, 623
Heating Systems: Design of Hot Water and Steam Heating Apparatus, F. W. Raynes, 573
Henslowe's Motor Dictionary, L. Henslowe, 623
History of the Great War, &c., Merchant Navy, Vol. I., Archibald Hurd, 296
History of the Great War, Sea-borne Trade, Vol. I., The Cruiser Period, C. E. Fayle, 75
Hydro-electric Development, J. W. Meares, 296
Hydro-electric Development in Ontario, E. B. Biggar, 547
India-rubber Goods Manufacture," Factory Manager," 325
Laboratory Aids in Practical Mechanics, &c., G. S. Bowling, 647
Lessons in Heat, Wm. Franklin and B. MacNutt, 128
Lessons in Mechanics, Wm. Franklin and B. MacNutt, 128
Liberalism and Industry, Ramsay Muir, 12
Lubrication, Practice of, T. E. Thomsen, 75
Marine Engineering, Engineer-Captain A. E. Tompkins, 128
Marine Propellers, S. W. Barnaby, 75
Mathematical Theory of Electricity and Magnetism, Elements of the, Sir J. J. Thomson, 296
Meteorological Office, Air Ministry, British Rainfall, 547
Meteorology, A. E. M. Geddes, 573
Microscope: Its Design, Construction and Applications, F. S. Spiers, 325
Mine Rescue Work and Organisation, H. F. Bulman and F. P. Mills, 573
Modern Sanitary Engineering, Part I., House Drainage, Gilbert Thomson, 12
Modern Sanitary Engineering, Part II., Sewerage, Gilbert Thomson, 489
Motor and Dynamo Control, W. S. Ibbetson, 12
Motor Trade Telegram Code, W. M. Saunders, 75
Municipal Engineering, H. P. Boulnois, 573
New Stone Age, &c., Harrison E. Howe, 573
Oceanography, Text-book of, J. T. Jenkins, 547
Opportunities in Engineering, C. M. Horton, 547
Physical and Chemical Constants and Some Mathematical Functions, G. W. C. Kaye and T. H. Laby, 517
Plumon's Dictionaries of Technical Terms, 517
Practical Hydraulics, Text-book of, &c., James Park, 647
Premium Bonus System, Sir W. Rowan Thomson, 325
Principles of Costing, A. Cathles, 623
Pure Mathematics for Engineers, Parts I. and II., S. B. Gates, 547
Radiographic Technique, T. Thorne Baker, 547
Recent Practice in the Use of Self-contained Breathing Apparatus, Lieut. Rex C. Smart, 647
Repairing of Locomotives, Vol. II., Boiler and Fire-box Repairs, E. L. Ahrons, 623
Serbo-Croatian Self-taught, J. J. R. E. Beirne, 547
Shipping and Transport, Reinforced Concrete, The Factory, 517
Single-phase Transformers, Small, Edgar T. Painton, 296
Slide Rule, C. N. Pickworth, 128
Smithing and Forging, Joseph G. Horner, 296
Social and Industrial History of Scotland, &c., James Mackinnon, 573
Spot and Arc Welding, H. A. Horner, 547
Standard Measurements, 547
State of Ohio, Miami Conservancy District, 547
Steam Railway Locomotive, E. L. Ahrons, 296
Technical Methods of Analysis, 573

LITERATURE (*continued*):

Books Received (*continued*):

Textile Mathematics, Part I. and Part II., T. Woodhouse and A. Brand, 573
Three-phase Induction Motors, Practical Treatise on, L. E. Wood, 573
"Transactions" of the Institution of Naval Architects, 75
Water Power Engineering, Fundamental Principles of, F. F. Fergusson, 296
Wireless Telegraphy . . . the Quenched-spark System, B. Leggett, 325

LLOYD'S Register—*see* Ships
Loader for Loose Materials, Radial Type, Jeffrey Company, 577
Lochaber Hydro-electric Scheme, 226
Locomotion, 239

PATENT SPECIFICATIONS:

British:

Aeronautics, 111, 223, 280
Batteries and Accumulators, 57, 583, 631
Building, 111, 168, 224
Condensers and Feed-water Heaters, 307, 337, 363, 681
Cranes and Conveyors, 224, 252, 337, 420, 474
Dynamos and Motors, 29, 111, 167, 223, 279, 363, 391, 419, 473, 557, 583
Electrical Appliances, 657
Electric Furnaces, 111, 138, 223, 307
Engines, Internal Combustion, 29, 57, 85, 137, 167, 193, 307, 391, 419, 473, 499, 557, 607
Engines, Steam, 279
Gas Producers, 29, 137, 363
Lighting and Heating, 251, 280, 307, 338, 363, 419, 529, 557, 584, 657
Machine Tools and Shop Appliances, 57, 138, 167, 223, 308, 338, 391, 448, 499, 530, 584, 631, 658, 681
Measuring and Testing Instruments, 85, 308, 529, 608, 658, 681
Miscellaneous, 30, 58, 112, 138, 168, 194, 224, 252, 308, 338, 364, 392, 420, 448, 474, 500, 530, 558, 584, 608, 632, 658, 682
Motor Cars and Road Traffic, 194, 308, 338, 420
Ordnance, 168, 364, 499
Pumping and Blowing Machinery, 112, 193, 252, 499, 557
Ships and Boats, 30, 558, 608, 658
Steam Generators, 193, 251, 473
Steam Turbines—*see* Turbines
Switchgear, 30, 85, 111, 137, 193, 280, 337, 447, 607, 631, 681
Telegraphs and Telephones, 30, 193, 337
Tramways and Railways, 224, 252, 363, 447, 474, 584
Transformers, 86, 111, 137, 251, 280, 419, 657
Transmission of Power, 86, 138, 224, 251, 308, 364, 419, 447, 529, 558, 583, 607, 631, 657, 682
Turbine Machinery, 57, 85, 193, 337, 391, 419, 499, 583, 657, 681
Wireless Telegraphy, 85, 137, 167, 223, 251, 279, 307, 337, 391, 419, 447, 499, 529, 557, 583, 631, 657, 681

PATENTS, Foreign, 314
Patents, United States, 629
Peat Power Plants in Germany, 422
Pendred, Loughnan, on The Mystery of Trevithick's London Locomotives, at the Newcomen Society, 242, 268; (Letters), 273, 301
Personal and Business Announcements, 27, 83, 132, 162, 191, 218, 249, 305, 361, 417, 445, 471, 497, 530, 581, 608, 632, 658, 682
Physical and Optical Societies' Exhibition, 34—*see also* Exhibitions
Physical Phenomenon and its Application, Alfred Johnsen and Kund Rahbek, 597, 600, 614
Plate Mill Plant, Three-high, Davy Brothers, Limited, 124, 129 (*Two-page Supplement, February 4th*, 1921)
Pneumatic Grain-discharging Plant, Floating, Henry Simon, Limited, 378, 381
Pneumatic Metal-scraping Machine, Anderson Brothers Manufacturing Company, 160
Port Improvements in Italy, 522
Port Improvements at Newcastle, New South Wales, Percy Allan, 270
Portable Engines—*see* Engines

Poultney, E. C., on Locomotive Footplate Experiences, 155, 365, 449, 561, 609; (Letter), 493
Power Plants, Heat Losses in, 571, 673; (Letter), 618

Great Western Railway, Trestle Viaducts on, Noss and Longwood, Penryn, Ponsanooth, and Saint Germains, 64, 72; (Letter), 92
Indian Railway Report, 315
London and North-Western and Lancashire and Yorkshire Railways Amalgamation, 352, 358
Melbourne Railways, Electrification of the, 78
New South Wales Railways, Motor Lorry Converted into Railway Motor Coach, 94, 95, 98
North-Eastern Railway New Electric Rolling Stock, 394, 406 (*Two-page Supplement, April 15th*, 1921)
North Staffordshire Railway, Automatic Train Control on, 288
Parsons Tunnel on the Great Western Railway, Lengthening, 256, 259
Stoke-on-Trent, New Railway at, 467

Foreign:

Alpine Tunnels, Progress of, 348
Belgian Congo, Proposed Railway Developments in, 386
Italian Railways, Electrification of, 400
Japan, Railway Construction in, 568
Latin-American Railway Notes, 214
Spain, Narrow-gauge Railway Construction in, 316
Spanish Railways, Nationalisation of, 568
Swiss Railways, Electrification of the, 563; (Erratum), 590; (Letter), 618
Virginian Railway 107-Ton Coal Wagons, 217

RAILWAY LOCOMOTIVES:

General:

Care of Locomotive Boilers, W. G. Bishop, 50
Grinding Machines for Locomotive Work—*see* Machine Tools
Inertia Resistance of Electric Locomotives, 618
Locomotive Footplate Experiences, 155, 365, 449, 561, 609; (Letter), 493
Locomotive for Nigeria, W. Beardmore and Co., 508

RAILWAY LOCOMOTIVES (*continued*):

General (*continued*):

Locomotives Built by Messrs. Longridge, R. B., and Co., Bedlington Works:
Bristol and Exeter Railway Broad-gauge Engine, 69
Early Locomotives Built at, 68
First Locomotive in Holland, The Snelheid, 1839, 68
Shrewsbury and Birmingham Railway Engine, 1849, 68
Shrewsbury and Chester Railway Engine, 1846, 69
Locomotives Built by Messrs. George and John Rennie, Blackfriars:
Brighton, Croydon and Dover Railway, Two Six-wheeled Single Engines, 1843, 367
Brighton Railway, Four Six-wheeled Single Engine, 1840, 1841, 367
Early Locomotives Built at, 366
Great-Western Railway, Two Broad-gauge Engines, 1841, 367
London and Croydon Railway, 1838 and 1839, 367
London and Southampton Railway Locomotives Built in 1838, 367
Trevithick's London Locomotives, Mystery of, Loughnan Pendred, 242, 268; (Letters), 273, 301, 357; (Correction), 357

British, Colonial and Indian:

Caledonian Railway Express Passenger Engine, 11 (*Supplement, January 7th*, 1921)
Great Central Railway, Footplate Experiences, E. C. Poultney, 365
Great Central Railway Four-cylinder Engines, 660 (*Two-page Supplement, June 24th*, 1921)
Great Eastern Express Goods Engine, 10 (*Supplement, January 7th*, 1921)
Great Indian Peninsular Railway Tank Engine, North British Locomotive Company, 11, 14
Great Northern Three-cylinder Engines, 593; (Letters), 617, 618, 664
Great Northern Three-cylinder Fast Goods Engine, 10 (*Supplement, January 7th*, 1921)
Great Western Railway, Paddington and Bristol, Footplate Experiences, E. C. Poultney, No. I., 561; No. II., 609
Lancashire and Yorkshire Passenger Engine, Tests of, 410
Lancashire and Yorkshire Railway, Footplate Experiences, E. C. Poultney, 155
London, Brighton and South Coast Railway, Footplate Experiences, 449; (Letter), 493
London and Brighton Superheater Express Goods Engine, 10 (*Supplement, January 7th*, 1921)
London and South-Western Six-coupled Express Goods Engine, 11 (*Supplement, January 7th*, 1921)
Metropolitan Railway Four-coupled Tank Engines, 120, 121
Metropolitan Railway Tank Engine, 11; (Correction), 38
Midland Locomotives, Oil Fuel Burners on, 601; (Letters), 618, 651, 664
Midland Railway Decapod, 10, 11
North-Eastern Three-cylinder Fast Goods Engine, 11 (*Supplement, January 7th*, 1921)
South African Railways, Garratt Articulated Locomotive, Beyer, Peacock and Co., Limited, 11, 14
Sudan Government Railways Engine, North British Locomotive Company, 11, 14

Motor Vehicles, Commercial, Parade of, 162
Motor Vehicles and Population in the United States, 619
Mysore, High-level Canal from River Cauvery Projected, 433

N

NAILS, Bolts and Nuts Manufacture, Report on Trade Combinations, 543
"Natalite," Experimental Consignment from South Africa, 543
Natural Gas in Mexico, Great Waste of, 207
Natural Gas and Petroleum Association of Canada, 216
New South Wales Manufactures, Statistics, 643
Niagara Falls, Power Increase Without Detriment to View, 71
Norway, Industrial and Economic Situation, Report on, 377

O

OCEAN Exploration, Proposed Expedition for, 459
Oil Bore-hole for South Africa, 293
Oil Deposits, Enormous Unexplored, in Various Regions of Southern Mexico, 669
Oil Development in Alberta, Rush for Oil Leases, 71
Oil Development in Canada, Petroleum Find, Aeroplane Communication, 123
Oil Engines, Drott Surface Ignition, Tests by Belgian Colonial Army, 569
Oilfields of Northern Canada, 293
Oil Finds on the Mackenzie River, Proposed Investigation by Canadian Government, 71
Oil Fuel Storage Installations in the Argentine, 669
Oil Prospecting by Aeroplane in the Orinoco Wilderness, 619
Oil for Steam Turbines, Necessity for Keeping in Good Condition, C. H. Bromley, 543
Oil Storage Tanks, Large, Being Built at Durban, 179
Oil Wells at Baku, Soviet Concession to British Company, 569
Oils for Lubrication, Continuous Duration if Continuously Purified, 377
Old Centralians, 191
Optophone, Thermionic Amplifier Experiments to Increase Sound Volume, A. A. Campbell Swinton, 405
Omnibus, Six-wheeled, Paris Experiment, 485
Ontario Loan for Hydro-electric Power Commission, 669
Ovens for Coke-making, in 1841, 123
Oxy-acetylene Blow-pipe for Boring Concrete, 595
Oxygen Manufacture for Engineering Use, Study of, at Harvard, 43

P

PACKING Case, Thief-proof, 543
Paris Passenger Traffic, Congestion Increase, Proposed Underground Moving Pavement, 265
Patent Office Assistant Examiners, Competitive Examination, 445, 549
Patent Office Inefficiency in America, 43
Pearl, Instrument to Detect Difference between Japanese Culture and Real Pearl, 662
"Penrol," New Motor Car Fuel, 433
Peru, Nationalisation of Water Power, 321, 669
Petrol Consumption in Australia, 405
Petroleum Bore-hole in Boshof District, South Africa, 485, 595
Petroleum Boring in Leicestershire, Licence Granted, 71
Philippines Postal and Passenger Aeroplane Service, 377
Phosphorus Deposits on Uninhabited Island, 265
Photometers, Illumination, Increased Use of, 377
Platinum Production in British Columbia, 433
Platinum, Prospecting for, in View of High Prices, 619
Platinum, World's Production of, 293
Plug, Bougiver Type, with Glass Insulator, 237
Polish Wireless Station, Very Large, to be Constructed by American Company, 265
Portland Cement Manufacture in Brazil, Proposed, 71, 151
Post Office Purchase of Trans-Atlantic Cable, 321
Power Plant near Melbourne and Fuel By-Products Recovery, 513
Presentations for Long Service, 629
Producer Gas, Bad Effect on Electric Machinery Windings, 179
Pulp and Paper Mill, 6,000,000-Dollar, Projected for Prince George, B.C., 97
Pulpwood in Manitoba, Land for Sale on Conditions, 377

Q

QUEBEC Government's Department of Industries, 480
Quebec Harbour Improvement, 433
Queensland, Apprenticeship Scheme, 400
Queensland, Reports on Hydro-electric Possibilities of, 178
Queenston–Chippawa Canal Development, 669
